Dear Patricia,

On behalf of my family and myself, I would like to express my profound thanks to you and your organization for all the help you rendered in selecting the appropriate nursing facility for my mother.

My family and I agonized over what to do or what was best for my aging mother who could no longer care for herself. We looked at numerous nursing facilities but nothing seemed right or adequate for her. The overwhelming anxiety of eldercare issues just overwhelmed us, we wanted the best for our mother and nothing seemed right. The stress of dealing with an elderly parent and dealing with the daily workload was taking its toll on my family and me. And then I was introduced to you and your organization, you embraced the mission of education, coordination and facilitating the many eldercare issues that faced my family and me. Aging with Grace helped us navigate through the murky waters of eldercare and helped us develop a workable plan for our mother, we had access to experts in the senior care field ready to answer questions and guide us through the maze of eldercare options available. Because of you and your organization my family and I no longer have to agonize or worry about the eldercare our mother is receiving. Again thank you, and your organization.
